## PROFILE

I'm a Full-Stack and certified Magento 2 developer with over 3 years of hands-on experience, contributing to many projects and delivering two end-to-end solutions. My expertise spans front-end, back-end, and e-commerce development, supported by a diverse skill set in multiple languages. Committed to delivering high-quality code, I'm dedicated to optimizing performance and continuously evolving with new technologies in web development.

## WORK EXPERIENCE

Scandiweb 09/2022-10/2023

- Full stack web developer, Magento 2 developer, React developer

IDEA Commerce 10/2023- 01/2025

- Full stack web developer, Magento 2 developer

Creativestyle 01/2025 - until now

- Frontend developer, Magento 2 developer

## PROJECTS

I have been working on various projects, most notably with Magento 2 based projects (over 25, creating from scratch, supporting, developing custom features for both the backend and frontend, implementing integrations, as well as fixing and developing). I have experience working with clear Magento, custom themes, ScandiPWA, Hyva, and Theme Creativestyle. Additionally, I have also worked on some small custom projects, including a custom WordPress SPA and small e-commerce shops on Woocommerce. The project I am most proud of is the [North Coast Pottery](#).

Throughout my career as a full stack web developer in ecommerce, I've been involved in end-to-end project development, from inception to maintenance. My expertise spans both backend and frontend tasks, including custom solutions, issue resolution, repository management, deployment, project migration, and client meetings for alignment with business objectives.

I've worked in diverse teams, from large international collaborations to smaller, tight-knit groups, including code reviews to maintain high-quality standards. Programming is not just my profession but my passion, and I continually develop my skills to stay current with industry trends.

Eager to bring my professionalism, dedication, and innovation to a dynamic work environment, I am confident in my ability to tackle new challenges.
